

Twisted Edge Mop

IDEALLY SUITED FOR FOODSERVICE, HOSPITALITY, AND HEALTHCARE INDUSTRIES

- Made from 100% synthetic fiber fashioned with tight twist
- Environmentally friendly usage of waste stream
- Pre-looped fiber ends provide increased longevity
- Highly absorbent, 5-7 times greater than conventional yarns
- Odorless & non-mildewing
- No linting & airborne particulates
- Does not harbor bacteria
- Provides greater coverage than traditional cut-end mop heads
- Light weight provides for easier usage & reduced shipping costs
- Minimal break-in required
- Ideal for all floor surfaces, including non-skid abrasive finishes
- Non-streaking
- Attractive pricing versus conventional rayon yarn
- Requires less chemicals for desired performance
- Available in multiple sizes, #12, #16, #24 and #32.

While this mop possesses many more benefits, the above represent features that experienced mop users will both recognize and value as difference makers when choosing a mop.
