

Pregis Corporation The brightest ideas in packaging.™

MATERIAL SAFETY DATA SHEET

1. PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: **AirSpeed**[®] **5000** Polyethylene "Air Pillow" Film

SUPPLIER: Pregis Innovative Packaging, Inc. 1650 Lake Cook Road, Suite 400 Deerfield, IL 60015

CONTACTS: Please contact your Pregis products sales associate or customer service associate: (1-800-834-9441).

2. COMPOSITION / HAZARDOUS INGREDIENTS INFORMATION

This product is a clear to cloudy flexible film and is not hazardous as defined in 29 CFR 1910.1200.

3. HAZARDS IDENTIFICATION

U.S. OSHA HAZARD COMMUNICATION:	Not hazardous per OSHA Hazard Communication Standard 29 CFR 1910.1200.
EFFECTS OF OVEREXPOSURE:	No known chronic health effects. No known health conditions are aggravated by
	exposure to this material under normal conditions of intended use. Inhalation of
	processing fumes may cause upper respiratory irritation. Polyethylene dust from
	grinding / pulverizing operations is considered nuisance dust.
EMERGENCY RESPONSE DATA:	Clear or translucent, flexible plastic film or packet. This material will burn if exposed to
	open ignition source. Fire gives rise to thick, black, toxic smoke composed primarily of
	oxides of carbon.
CARCINOGENICITY LISTINGS:	None known.

4. FIRST AID MEASURES

Take proper precautions to ensure your own health & safety before attempting to rescue and provide first aid. For specific information, refer to the Emergency Overview in Section 3 of this MSDS.

INHALATION:If symptoms are experienced, move victim to fresh air, if symptoms persist, obtain medical attention.EYE CONTACT:Wash eyes with clean low-pressure water. If irritation persists, seek medical advice.SKIN CONTACTIf molten material contacts the skin, immediately flush with large amounts of water to cool the affected tissue and polymer. Do not attempt to peel polymer from skin. Get medical attention immediately.INGESTION:Adverse health effects due to ingestion are not anticipated. If gastric irritation or discomfort persists, seek medical advice.

5. FIRE-FIGHTING MEASURES

FLAMMABILITY CLASSIFICATION:	Not classified. Polymer will bur	n but does not ignite readily.	
FLASH POINT/METHOD:	Not applicable.		
AUTO-IGNITION TEMPERATURE:	~650 °F (343°C) Estimate		
FLAMMABLE LIMITS:	Lower: Not Applicable	Upper: Not Applicable	
HAZARDOUS COMBUSTION PRODUCTS:	Carbon monoxide, olefinic and paraffinic compounds, trace amounts of organic		
	acids, ketones, aldehydes and	alcohols may be formed.	
SPECIAL CONDITIONS TO AVOID:	Dust may form explosive mixtur	res with air.	
EXTINGUISHING MEDIA:	SMALL FIRE: Use DRY chemicals, CO ₂ , or water spray. LARGE FIRE: Use liberal amounts of water spray.		
FIRE FIGHTING INSTRUCTIONS:		Wear a NIOSH-approved positive pressure self-	
	contained breathing apparatus	and firefighter turnout gear.	
	Instructions: Use flooding quar	tities of water until well after fire is out.

6. ACCIDENTAL RELEASE MEASURES

RELEASE RESPONSE:	Pick up and retain for recycle or disposal.	Do not flush spilled material to sewer or the
	environment.	
REPORTABLE QUANTITIES:	None. See Section 15: Regulatory Information	on.

7. HANDLING AND STORAGE

HANDLING: Keep material off walking surfaces, pellets may create slipping hazard. Polymer dust generated by aggressive handling methods may form explosive mixtures with air. Avoid accumulation of dust in enclosed space. Use in well ventilated area. Ground and bond equipment to prevent electrostatic charge when transferring product. Control spilled pellets to prevent runoff to the sewers and the environment.

STORAGE: Keep container dry. Store away from extreme heat and away from strong oxidizing agents. Keep containers closed to prevent contamination.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

ENGINEERING CONTROLS: If user operations generate dust, fumes or mist, use ventilation to maintain ambient airborne contaminants below recommended occupational exposure limits. PERSONAL PROTECTION:

INHALATION: Appropriate respiratory protection where atmosphere exceeds allowable limits:

	Total Dust, PNOC	Respirable Dust, PNOC
	ACGIH10 mg/M3	3 mg/M3
	OSHA 15 mg/M3	5 mg/M3
SKIN:	5	ong sleeves or a lab coat should be worn. When handling heated neat-resistant gloves, boots and face protection.
EYES:	Safety glasses.	

9. PHYSICAL AND CHEMICAL PROPERTIES

BOILING POINT RANGE:	Not applicable	pH:	Not applicable
VAPOR PRESSURE:	Not applicable	Viscosity:	Not applicable
SPECIFIC GRAVITY:	~0.92 – 0.98 (water = 1)	Water Solubility:	Insoluble
OCTANOL/WATER		Melting Point:.	~136° C (266° F)
PARTITION COEFFICIENT:	Not applicable	Evaporation Rate:	Not applicable

10. STABILITY AND REACTIVITY

CHEMICAL STABILITY:The product is stable.CONDITIONS TO AVOID:Avoid contact with strong oxidizers, excessive heat, sparks or open flame.INCOMPATIBILITY WITH:The pellets are softened by some hydrocarbons. Reacts with Fluorine Gas.HAZARDOUS PRODUCTS OFUnder normal conditions, this material will not decompose to form hazardous products.DECOMPOSITION:No.

11. TOXICOLOGICAL INFORMATION

Not considered to be toxic to humans or animals.

ACUTE INHALATION EFFECTS:	Rats inhaling polyethylene DUST developed mild inflammatory changes in the lungs. Prolonged inhalation of thermal degradation products from polyethylene caused neurological effects in rats.
ACCUTE ORAL EFFECTS:	Animal studies showed no adverse health effects on the digestive system when fed up to 20% polyethylene.
SKIN EFFECTS:	No skin effects are expected from polyethylene contact.
REPEATED DOES TOXICITY:	Subchronic, 50-90 day, feeding studies conducted on rats, dogs and swine showed no effects from dietary levels of 1 to 20% powdered and shredded polyethylene. IARC has listed polyethylene as a Group 3 substance (unclassifiable or probably noncarcenogenic).
CARCINOGENICITY:	None expected.
REPRODUCTIVE/	No reproductive or developmental effects are expected.
DEVELOPMENTAL EFFECTS: Component	
• 1-Octene, polymer with ethane	
ACCUTE INHALATION EFFECTS:	Rats inhaling polyethylene DUST developed mild inflammatory changes in the lungs. Prolonged inhalation of thermal degradation products from polyethylene caused neurological effects in rats.
ACCUTE ORAL EFFECTS:	Animal studies showed no adverse health effects on the digestive system when fed up to 20% polyethylene.
SKIN EFFECTS:	No skin effects are expected from polymer contact.
REPEATED DOSE TOXICITY:	Subchronic, 50-90 day, feeding studies conducted on rats, dogs and swine showed no effects from dietary levels of 1 to 20% powdered and shredded polyethylene. IARC has listed polyethylene as a Group 3 substance (not classifiable) as to carcinogenicity to humans).
CARCINOGENICITY:	None expected.
REPRODUCTIVE/	No reproductive or developmental effects are expected.
DEVELOPMENTAL EFFECTS:	

12. ECOLOGICAL INFORMATION

 ECOTOXICITY:
 Ecotoxicity is expected to be low based on the low water solubility of polymers. Pellets can be harmful to birds and fish if digested.

 ENVIRONMENTAL FATE:
 No information found in our selected references.

 BIOACCUMULATION:
 Not expected to occur.

13. DISPOSAL CONSIDERATIONS

This material is NOT classified as a Hazardous Material by RCRA. Use only licensed transporters and permitted disposal facilities and conform to all laws.

14. TRANSPORT INFORMATION

DOT HAZARD CLAUSE: UN/NA ID: PACKING GROUP: REPORTABLE QUANTITY: LABELS: MARINE POLLUTANT: NAER GUIDEBOOK:	Polyethylene, or liquid Non-regulated Non-regulated Not applicable None Not applicable No Non-regulated

15. REGULATORY INFORMATION

TSCA	
100/1	

CERCLA:

packaging and

SARA-Section 313

EMISSIONS REPORTING: SARA III, Sec. 311/312:

CALIFORNIA PROPOSITION 65:

model for the reduction of toxics in

PACKAGING PREVENTION ACT

COALITION OF NORTHEAST GOVERNORS ("CONEG") legislative All components of this product are listed on the TSCA 8(b) inventory. If identified, components of this product are listed under the TSCA 12 (b) Export Notification rule, they will be listed below. (None)

This product contains no SARA 313 "toxic chemicals" above threshold levels.

No components present in this product are subject to the reporting requirements of this statute.

No reportable quantities.

No Warning required.

All shipping mailer packaging and packaging components, manufactured in the United States by Pregis Innovative Packaging, Inc., comply with the several United States' enacted provisions of the Coalition of Northeast Governors ("CONEG") legislative model for the reduction of toxics in packaging and the California Toxics in Packaging Prevention Act. Pregis Innovative Packaging, Inc.'s manufacturing practices prohibit the intentional introduction of cadmium(Cd), hexavalent chromium(Cr ⁺⁶), lead (Pb), or mercury (Hg) into its products' formulations. Further, the cumulative total of all such metals' incidental concentrations does not exceed 100 parts per million (ppm).
